DETAILED ACTION

1. An amendment was received from the applicant on February 1, 2006.
2. Claims 1-55 have been canceled.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 68 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. On line 3 of Claim 68, a plate-shaped molded component is disclosed with a "sleeve-like attachment". It is unclear to the examiner how much like a sleeve said attachment must be in order to be considered as "sleeve-like".

Allowable Subject Matter

6. Claims 56-67 are allowed.

Response to Arguments

7. Applicant's arguments with respect to claim 68 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nakamura et al. (US 4,914,945), Boucher (US 4,836,020), Greene (US 3,903,741), Sandstedt (US 3,596,513) and Warner (US 3,400,582) disclose hull-mounted vessel speed detecting devices.

10. Any inquiry concerning this communication from the examiner should be directed to Exr. Lars Olson whose telephone number is (571) 272-6685.
